Course Name: DataBase Management System

Course Faculties: Dr.Kesavan.R

Title: NATIONAL VOCATIONAL CERTIFICATION AND EXAM SLOT-BOOKING SYSTEM:
AN INTEGRATED STUDY IN FILE ORGANIZATION, INDEXING, HASHING, QUERY
OPTIMIZATION, AND TRANSACTION MANAGEMENT

Project Description: Module 1: File Organization, Indexing and Hashing

Module 1 is responsible for the efficient storage and retrieval of examination records in the National Vocational Certification and Exam Slot-Booking System. It focuses on organizing large volumes of candidate records, examination attempts, examination-centre details, and booking information using suitable file organization techniques. The module implements sequential, indexed-sequential, and direct/hashed file organization to support different retrieval requirements. B+ tree indexing is used to improve candidate-wise and centre-wise searches, while a hashing technique with collision resolution provides efficient direct access to candidate records
